Key Personels

Our Experienced Team:

B.O.D

DU YING

15+

EXPERIENCE

She distinguished herself at AVIC International Engineering Corporation as an exceptional performer and now focuses on delivering solar energy solutions in Kenya. Her portfolio includes successful residential solar projects, such as installations for Catherine Kariuki and Nininder Sagoo in Runda Park.

C.E.O

JASON

20+

EXPERIENCE

Jason is a Chief Engineer with 13 years leading large-scale solar plants, substations, and infrastructure projects across Asia and Africa. He specializes in solar PV design, grid integration, and structural engineering, ensuring reliable, sustainable energy solutions while managing multidisciplinary teams. His leadership and technical expertise position him as a cornerstone in advancing clean energy initiatives.

CHIEF ENGINEER

CHEN

10+

EXPERIENCE

Chen Zhijun served as Managing Director of AVIC International Engineering Corporation's Uganda and Tanzania branches from 2011 to 2019, overseeing public and civil projects worth over USD 400 million. He later joined CJI Company to focus on clean energy, particularly solar engineering, where he has delivered small to medium residential solar projects in Kenya and contributed to major initiatives such as the 220kV Margram Valley Substation Project in Zambia.

ENGINEER

DAVID

12+

EXPERIENCE

David is an experienced Electrical Engineer with 10 years in power systems, industrial installations, and solar PV projects. He has delivered residential and commercial solutions with strict compliance to KEBS and KPLC standards, combining technical precision with practical problem-solving.
